Art Unit: 3653

1. The office action filed on 01-24-05 has been withdrawn because claims 1-23 have been canceled. As such, the following office action on claims 24-42 is set forth as follows:

1. The following is an examiner's statement of reasons for allowance: The claims have been allowed because claim 24 recites a cartridge for dispensing medication. The cartridge has compartments for the medication and a vacant space between the compartments. There is a rotatable cover having an opening to coincide with the opening for loading or dispensing of medication therethrough. There is a means for the visual indication of the dispensing schedule comprising a first ring with sections for the days of the week and a second ring dividing the sections into subsections to indicate the number of medicine of a given day. Finally, the cartridge has an identification date, on the basis when the cartridge is filled and can be certifiably returned to a correct user. The claimed structure and its interrelationship is not disclosed in the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Benaroya is cited disclosing in figure 3 a cover 13 having an opening 21. Note also the ring 12 with dates.

Rollman is cited disclosing a ring 9 to indicate the amount of medication to be taken for the blind.

The amendment to the specification, drawings and claims filed on 03-01-04 to reflect the embodiment of figures 8 and 9 has been approved.
